Mr. Larry Rosenmann
New York State Department of Environmental Conservation
Division of Solid and Hazardous Materials.
625 Broadway
Albany, New York 12233-7258

Dear Larry:

Subj: NAVY MEETING WITH NYSDEC REGARDING INSTALLATION RESTORATION
PROGRAM AT THE FORMER NAVAL WEAPONS INDUSTRIAL RESERVE PLANT
(NWIRP) CALVERTON, NY

I am looking forward to our technical meeting with representatives from New York DEC to be held at NYSDEC's Central Office in Albany, NY on March 30, 2006, starting at 8:00 a.m. This letter is intended to give you a brief overview of what the Navy would like to discuss and the following list will serve as the agenda for the March 30th meeting.

- NYSDEC comments on Draft CMS for Sites 6A, 10B and Southern Area On-Site Groundwater dated January 2006 followed by Remedy Selection Discussion;
- Results of Supplemental Fieldwork to Delineate extent of PCB contamination at Site 6A;
- NYSDEC comments on Draft CMS for Off-Site Southern Area Groundwater dated January 2006 followed by Remedy Selection Discussion;
- NYSDEC Comments on Draft Statement of Basis for Major Modification of the Part 373 Permit dated March 2006 for Sites 1, 9, 10A, and Agricultural Outlease (attached).

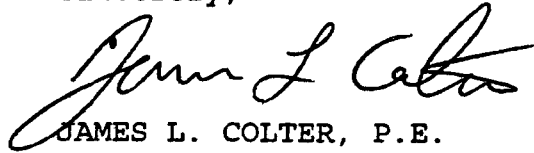

With the exception of the Draft CMS documents which were previously forwarded to you, attached to this letter are relevant documents regarding the above agenda that will be discussed during the meeting. The two Environmental Baseline Survey for Transfer (EBST) documents are Navy documents that are used to make a determination that the properties are suitable for transfer. This designation is needed so that the Navy's Real Estate department can begin the process of preparing appropriate transfer documents for the conveyance of these parcels to the Town of Riverhead. Both the Navy and the Town would like to see concurrence from the NYSDEC regarding these suitability for transfer determinations.

W.

As stated in my letter of 31 January 2006, which forwarded the two CMS documents, one of the Navy's goals for this meeting is to come to consensus regarding the recommended remedial alternatives for Sites 6A, 10B, and the Southern Area.

If you have any questions prior to our March 30 meeting, please give me a call at (610) 595-0567, extension 163.

Sincerely,

JAMES L. COLTER, P.E.
Remedial Project Manager
By Direction of the
Commanding Officer
